Asbestos Management Plan School Year 2020-21

September 1, 2020

Dear Parent(s)/Guardian(s);

The Asbestos-in-School Rule (AHERA) has required that Local Education Agencies have all buildings under their jurisdiction inspected for asbestos containing materials.

Pursuant to this rule, the Hackensack Meridian, Carrier Clinic Engineering & Support Services Department inspects, assesses and recommends response actions as part of a comprehensive Management Plan for the organization. Implementation of any response action is coordinated and managed by Charley Dorio, Plant Operation Manager.

Every year the following actions take place organization wide regarding asbestos:

- Biannual periodic surveillances are conducted for asbestos containing materials
- Three year inspections
- Operations and maintenance repairs are performed as needed
- Asbestos abatement projects as warranted

Please be advised that copies of the Management Plans and updated information for East Mountain School are on file in the Engineering & Support Services Department.

Thank you.

Dr. Stacey Paulis, Ed. D.
Director/Principal
