

**No More Research Education FOMO (Fear of Missing Out)!**

We are now offering the opportunity to opt for automatic calendar invitations for programs like our Investigator Training Lecture Series, Biostatistics Education Series, and more!

You will no longer need to actively add the events to your calendars. Instead, you may request a subscription and never have to worry about missing an announcement or forgetting to click the “add to calendar” links.

Please note that this does not apply to events for which registration is required, such as the Annual HMHRI Research Symposium.

To subscribe to a specific series or to all of the educational events, click [here](#) or go to [https://redcap.link/education\\_subscriptions](https://redcap.link/education_subscriptions).

For any questions, please contact [ora@hmn.org](mailto:ora@hmn.org).
